In a world into which nuclear weapons have been introduced and where instability characterizes international relations, we, the one people of the Earth, cannot afford to wage war.

The costs go beyond the lives and livelihoods lost, infrastructures destroyed, environmental chaos, and so forth. The planet itself is at stake. A group founded in Eugene, OR, called "Beyond War" has addressed the issue of modern war in a 28-minute video which will be screened at the fellowship and followed by a discussion of its contents and plan for guiding the world toward permanent peace.

#### **"The UU Arch"**

Barb Blom

Some may say UUs don't have a common theology, so what is it that binds us together? Are we simply a fellowship of like minded liberals or is there something more? Let's examine the arch of our principles and their implications.

## President's Pondering

Dear Fellowship,

People brave enough to stand up for their own beliefs go to a U.U. Church. People willing to defend their convictions for social justice go to a U.U. Fellowship. People who feel free to speak their mind and are comfortable with their level of spirituality attend a U.U. Church. This air of freedom can be intimidating and even unnerving to a new comer. They just are not use to it. That is why it is our duty to spread the "word" of UUism. That is why it is out duty to make a new comer feel nourished and welcome. This is why we have a radical hospitality team. If you believe in spreading the "word," I encourage you to participate in the U.U.A.'s Now is the Time campaign on October 14th. If you want to share our unique experience on Sunday's I encourage you to join the radical hospitality team. Please call Cathleen Deery at 732-1427.

It is our purpose to not only make a comfortable space for ourselves but an inviting space for all. Therefore I submit the following vision statement for your critique:

It is our intent to create a space for affirming spiritual and intellectual growth, with a level of professional leadership adequate to serve and guide us through evolving growth and change. Further, we wish to fill this space with a loving and nurturing environment to spread true family values that is the message of Unitarian Universalism.

Moving forward with your thoughts,  
Tamara

### **Interfaith Leaders to Fast for Peace To End Iraq War**

Leaders from many religious communities have urged Americans of all faiths to fast from dawn to dusk on Monday, October 8 to call for an end to the war in Iraq.

"This war must end!" say the religious leaders in their statement about the interfaith fast. "We must end the shattering of Iraqi and American lives by offering American generosity and support -- but not control -- for international and nongovernmental efforts to assist Iraqis in making peace and rebuilding their country, while swiftly and safely bringing home all American troops."

Bishop Christopher Epting, the Episcopal Church's ecumenical and interfaith officer, is among those religious leaders supporting the event.

"Surely the one thing people of faith can do together to work for peace is to use the ancient spiritual disciplines which we share in common," said Epting. "Prayer and fasting together, particularly during times of the year when a number of our traditions mark major holy seasons and days, seem pretty basic. I hope many Episcopalians will join this nationwide effort."

The religious leaders are inviting millions of Americans to organize joint interfaith events in local communities to fast and break the fast together. Events can be registered at [www.interfaithfast.org](http://www.interfaithfast.org) where groups can find a toolkit to assist in organizing such gatherings.

Social Justice –

Please help spread the word:

Our fellowship has invited Marc Adams, founder of Heartstrong, to present the Sunday morning worship on December 9th. We're also attempting to facilitate his speaking to other audiences in the region while he is here. So if you know of PFLAG or other gay and lesbian support groups, please let Jenny Monroe know.

Marc's presentation style is open and conversational. He articulates his story and the vision of his HeartStrong organization with acute analysis and from the authority of his own, lived experience. Offering no pretense as he discusses the damage done to GLBT people within the fundamentalist and evangelical community, Marc also avoids the shrillness and caricature that sometimes accompany religious liberals' critiques of the Religious Right.

As we Unitarian Universalists seek to bring our message of inclusive religious life into broader public view, Marc's perspective augments the information we have at our disposal and gives greater moral clarity and impetus to our struggles against oppression. You can find out more information about Marc and his work at
